

HERMANOS INFONCUNDIBLES

DIABOLO CLASSIC METAL

COMPANY

They begin as Brothers since little ones, but it's not until the end of 2003 when they found the company and become Infoncundibles. Born and grown in Seville, it's there where they start practicing juggling and discovering a circus vocation, later their livelihood. They complete their formation in such different places as Madrid, Buenos Aires, Berlin... or the internet!

They give their shows an Infoncundible humorist and musical touch, though they always have the circus as the starting point, as well as the relationship between brothers (opposite and complementary) for constant topic.

Besides traveling through almost all the Iberian Peninsula (not little) and a lot of the Italian one, they have shown their work in countries like Holland, Belgium, Greece, Poland, Austria, Morocco, Algeria, Egypt, Qatar, India, Japan, Cuba, Argentina, Chile, Mexico, Costa Rica, Portugal, Lithuania, Puerto Rico, Taiwan...

SYNOPSIS:

The show is just about to begin. The eccentric brothers make the last things to get everything ready with a calculated disorder. But still there's one doubt: if Beethoven would have been born today... will he be a rocker or a juggler? Exactly, neither they know it.

We found ourselves again in front of a strange mix between music, circus and humor... humor over all. Getting along with different styles (flamenco, classic and rock), the main characters evolve with a variety of ways of juggling understanding, mixing a high technical level with quality music taste. (obviously this was written by themselves)
